SUMMARY

I am a MERN stack developer with a year of hands-on experience. My skills include working with C, C++, HTML, CSS, JavaScript, ReactJS, Node.js, Express, and MongoDB. Recently, I've expanded my knowledge to include Docker, AWS services like S3, and EC2, as well as Git, GitHub, and GitLab. I'm looking for an opportunity to apply my skills in a dynamic environment that supports growth and innovation.

TECHNICAL SKILLS

Languages/Database: C++, C, JavaScript, HTML, CSS, SQL, MongoDB, PostgreSQL

Web Technologies: Reactjs, NodeJs, ExpressJS, Bootstrap, Material UI (MUI), Postman,

DevOps/Cloud Skills : Docker, AWS (S3 and EC2), Git, GitHub, GitLab, Linux (Ubuntu) / Windows, Figma, Canva

Coursework: Operating Systems, Computer Networks, Database Management System, Data Structures Design and Analysis of Algorithms, Artificial Intelligence

EXPERIENCE & INTERSHIPS

Tecraki Technology Solutions PVT. LTD.

Dec 2023 – Present

Frontend Developer

[Tecraki](#)

- Developed Healthcare Product Created a comprehensive healthcare platform, [BaelHealth.com](#), designed for managing patients, doctors, and staff across clinics, hospitals, pharmacies, and laboratories.
- Implemented E-Prescription Management Developed a feature allowing doctors to write and send e-prescriptions to hospitals and pharmacies for medicine issuance. Patients can access their prescriptions and test results through the patient login dashboard.
- Digitalized Hospital Forms (SuvidhaForm) Designed and implemented SuvidhaForm, a tool to digitalize hospital forms, enabling auto-filling of forms with a single click for increased efficiency and accuracy.

Code Clause

Aug 2023 – Sep 2023

Web Development Internship

[Link](#)

- Developed a ReactJs [Weather Web App](#) using external APIs, providing real-time weather data to users.

PERSONAL PROJECTS

Shivam Medical & E-commerce | [ReactJS](#), [MongoDB](#), [Express](#), [Nodejs](#), [MUI](#), [Zustand](#) [Github-Frontend Backend](#) [Live Demo](#)

- Built a responsive React application using MERN stack with Zustand for state management, Razorpay for payment integration and Cloudinary SDK for upload files and images.
- Functionalities for users to book appointments, view previous appointments, and reschedule them seamlessly.
- Enabled users to browse and purchase medical products, as well as manage their accounts effectively.
- Developed a separate login system for hospital admins to manage operations securely.
- Admin functionalities include adding, editing, and deleting products, booking appointments for patients, and managing orders with options to update and modify them.
- Integrated Generative AI to analyze patient problems and suggests medication by entering some basic details such as symptoms, age, and gender.
- Deployed the application on Vercel: [Shivam Pharmacy Website](#).

Expense Tracker | [ReactJS](#), [MongoDB](#), [Express](#), [Nodejs](#), [Cloudinary](#), [MUI](#), [Github-Frontend Backend](#)

[Live Demo](#)

- Developed a full-stack MERN application to track and manage personal expenses with a user-friendly interface.
- Implemented functionality for users to add and categorize expenses date-wise each month.
- Enabled users to view monthly expenses, including graphical visualizations of their spending patterns (year-wise).
- Users can upload bills or receipts for each expense via Cloudinary for easy record keeping.
- The app calculates and displays total monthly expenses, savings, and average daily expense amounts.
- Deployed the application on Vercel: [Expense Tracker Website](#).

EDUCATION

Bundelkhand University, Jhansi

July 2019 – June 2023

Bachelor of Technology (Computer Science and Engineering)

CGPA: 7.8/10

RPJSSMIC Tetri bazar Siddharth Nager

July 2016 – June 2018

Intermediate (12th)

Percentage: 82.6/100

EXTRA-CURRICULUM'S

Smart India Hackathon Participants 2022 | [Link](#)

August 2022

- Managed a team and project during the hackathon, showcasing leadership and project management abilities.
- Developed practical expertise in fast prototyping, problem analysis, and time management during the hackathon's coding and development phases.
